

Epoxy Coated S/S Cable Tie Technical Data

• Material:

- 316 Stainless steel for the most corrosive environments.
- Coated with epoxy resin.
- High tensile strength.
- Low insertion force with excellent resistance to weathering and ageing.

• Features:

Water Absorption:	none.
Flammability:	Non-flammable, Halogen Free, UV Resistant.
Ultraviolet resistance:	excellent.
Chemical resistance:	excellent.

- **Operating Temperature:** -40°C to +150°C

• Application:

- Self-locking head design speeds installation and locks into place at any length along the tie body.
- Provides a strong, durable method of cable bundling.
- Can be used in a wide range of indoor, outdoor and underground (including direct burial) applications.
- Smooth surfaces and rounded edges assures cable protection and worker safety.
- Provide the ultimate support for network cables.
